

14 February 2025

Dear colleagues,

West Moseley Traffic Reduction Scheme

You may be aware that the Birmingham Transport Plan was launched in 2021.

The plan contains a set of principles that will guide investment in transport so that it is able to serve a future Birmingham that is home to more people and that is a better environment in which to live and work for everyone irrespective of age, disability or income.

These measures are designed to:

- *Reduce transport's damaging impact on the environment, supporting Birmingham's commitment to becoming a carbon neutral city by 2030*
- *Eliminate road danger particularly in residential areas*
- *Connect people with new job and training opportunities*
- *Reconnect communities by prioritising people over cars*
- *Revitalise the city centre and local centres.*

https://www.birmingham.gov.uk/info/50348/transport_plan_and_policies/2032/birmingham_transport_plan

As part of the plans, a trial closure of the junction at Shutlock Lane and Moor Green Lane will come into effect on or around the 27th April 2025. This is likely to have a significant impact on journey time for minibuses to school and for any parents who drive their child into the school.

We are meeting with local councillors to discuss this further as well as engaging with Children and Young Peoples' Transport to ensure that our students can travel to and from school without negatively impacting on their wellbeing and life chances.

In the meantime, we are writing to ask all parents to respond to this consultation.
